Under the existing arrangements, the distributors once appointed will continue to function until they are removed. There will, therefore, be no need to conduct a fresh selection every year for the distributorship or to renew the agreement from year to year. The question of selecting new distributors will arise only in cases where existing distributors are unwilling to continue or there is misbehaviour on the part of the existing distributors entailing the cancellation of their selection. The substitutes appointed in such vacancies will also continue to function as distributors without any time limit from the date of their selection. All Collectors are, therefore, informed that the four distributors of ammonium sulphate selected for each taluk for the period from

1-5-55 will continue to function as distributors until such time the agreements are terminated.
